

# NEW RAGE CYCLES

## INSTALLATION INSTRUCTIONS

### APRILIA RSV4/TUONO 1100

#### FENDER ELIMINATOR

- 1 Remove seat and unplug stock connector. (Picture 1)
- 2 Remove stock tail section by removing (3) bolts and slide off bike.
- 3 Feed harness through hole in body. Take (2) black spacers, (2) M6x25 bolts, (2) nylon nuts, and mount through lower holes on fender eliminator bracket. (Picture 2/3)
- 4 Take third black spacer and M6x25 bolt and thread into frame using top hole on fender eliminator bracket. (Picture 4/5)
- 5 Adjustable license plate bracket will come tight. Loosen bolts and adjust plate to desired location.
- 6 Plug harness together and mount license plate
